SUBJECT INDEX

Abstainers

cardiovascular status of 576

Abstinence

maintenance of, after therapy with SSRIs 151
status of, in chronic alcoholics, in relation to comorbid depression 482

Acamprosate

improvement of autonomic neurocardial balance during short-term treatment with, of recently abstinent alcoholics 602

Accident and Emergency Departments

perceptions of alcohol-related attendances in, a national survey in England 354
role of intervention by an alcohol health worker in, in influencing subsequent drinking behaviour 651

Acetaldehyde

oxidation of, by bacteria of the human colonic flora 273

Acute alcohol consumption

depletion of circulating tryptophan by, as a possible cause of alcohol-induced aggression 66

Addicted Prisoners Trust: (RAPt)

role of, in rehabilitation of addicted prisoners 83

Adverse effects of ethanol

application of the queuing theory with the Monte Carlo simulation to the study of 519

Age

effect of, on sensitivity of carbohydrate-deficient transferrin in detecting alcohol consumption 164
role of, in population distribution of class 1 alcohol dehydrogenase gene in French 173

Aggression

alcohol-induced, role of serotonin in 66
induction by alcohol consumption 55
relationship to treatment outcome in alcoholism 16
role of prefrontal cortical function in alcohol-induced aggression 47
role of serotonin in induction of by alcohol 55

Aggressive attitudes

of children of alcoholic and violent parents 42

AIDS

progression of HIV infection to, in relation to excessive alcohol consumption 202

Alcohol

and criminal behaviour 12
as a cause of aggressive and violent behaviour 55
health, the heart and: implications for clinicians (Review) 576
medico-legal aspects of criminality related to 26
role of, in lipoprotein changes in relation to protection against coronary heart disease 403
role of executive cognitive function in aggression induced by 47
violence and a British All-Party view on 89

Alcohol abuse

prevention of birth effects related to 411
prevention of birth effects related to 417
relationship of, to healing complications after cervical hip fractures 373

Alcohol abusers

activities of alpha-glutathione-S-transferases in, in relation to alcohol intake and liver involvement 366

Alcohol administration

production of liver lesions following oral administration of alcohol containing low-carbohydrate liquid diet 347

Alcohol and offending groupwork programmes

for rehabilitation of alcohol-related criminal offenders 78

Alcohol availability

trends of, in Alberta: 1975-1993, in relation to consumption levels and alcohol-related problems 265

Alcohol consumption

commentary on 'Down the road to deregulation' of 337
duration of, in relation to CDT sensitivity 164
familial aspects of, in Jewish families 509
possible mediation of the cardioprotective effect of moderate, by 'vital exhaustion' 528
recent, biochemical markers of, in urine 431
relationship of excessive, with viral infections 202
roles of saccharin and open-field behaviour as predictors of ethanol drinking by Wistar rats 131
study of habits and trends of, in Swedish women 533
trends of, in relation to alcohol consumption in Alberta for the 1975-1993 period 265
use of serum carbohydrate-deficient transferrin in assessment of, in patients in a general medical clinic 304

Alcohol consumption behaviour

public opinion of, in relation to the social climate on alcohol in Rotterdam, The Netherlands 141

Alcohol consumption levels

higher in medical and other students than in the general population in the Trent region 549

Alcohol control policy

public opinion of, in relation to drinking behaviour in Rotterdam, The Netherlands 141

Alcohol dehydrogenase

characteristics of, in certain aerobic bacteria representing the human colonic flora 273
population distribution of the class 1 gene of, in France, in comparison with other populations 173

Alcohol dependence

ataxia of stance in Lesch's types of 393
comparison of home detoxification and minimal intervention, treatment of 157
incidence of, in rural population in Udmurtia, Estonia 255
relationship between comorbid depression and drinking outcome in 482
treatment of, with benzodiazepines: a review 563
usefulness of serum carbohydrate-deficient transferrin determination as a marker of 646

Alcohol habits

study of, in Swedish women 533

Alcohol health worker

role of, in influencing alcohol drinking behaviour after brief intervention in an Accident and Emergency Department 651

Alcohol intake

a meta-analysis of the relationship between risk of liver cirrhosis and 381

Alcohol intoxication

as a method of induction of alcohol withdrawal seizures in studying the kindling phenomenon 244

- binocular depth inversion reduction in, in alcohol withdrawal 168
- role of, in the withdrawal-kindling paradigm 230
- Alcohol liver disease**
 - animal model of, involving oral administration of ethanol in a carbohydrate-deficient liquid diet 347
- Alcohol metabolism**
 - enhancement of, by stress in patients with burns (Editorial Comment) 311
 - enhancement of, by stress in patients with burns (Letter) 310
- Alcohol misuse**
 - role of B-vitamin deficiencies in neuropsychiatric syndromes associated with 317
 - role of, in criminal behaviour 12
 - usefulness of serum carbohydrate-deficient transferrin as a marker of 646
- Alcohol preference**
 - role of γ -hydroxybutyric acid in 121
 - the brain serotonin status in 226
 - tryptophan metabolism in, in Sardinian sP rats 220
- Alcohol problems**
 - development of, in relation to sexual abuse: A Review 592
- Alcohol warning labels**
 - role of, in prevention of alcohol-related birth effects 411
- Alcohol withdrawal**
 - binocular depth inversion reduction in 168
 - electrical amygdala kindling in kindled rats 244
 - irreversibility of kindling behaviour of, in rats 230
 - predictors of severity of 291
- Alcohol withdrawal syndrome**
 - drug treatment of: a systematic review 103
- Alcohol-dependence**
 - limitations in the use of gamma-glutamyl transferase estimations in subjects with 626
- Alcohol-dependent patients**
 - psychophysiological diagnostic testing in, with Fourier analysis of pupillary oscillations and the receptor test for determination of cholinergic deficiency 541
- Alcohol-deprivation effect**
 - increase in alcohol intake due to, and the role of saccharin in 131
- Alcohol-preferring Sardinian sP rats**
 - greater sensitivity to the sedative effects of γ -hydroxybutyric acid than non-preferring sNP rats 121
 - lower serotonin and 5-hydroxyindol-3-ylacetic acid concentrations in frontal cortex of brains of, in comparison with -non-preferring sNP rats 226
 - serotonin and tryptophan metabolism in 220
- Alcohol-related crime**
 - and the Magistrates' Courts 78
 - role of police in combating and preventing 73
- Alcohol-related problems**
 - perceptions of, at Accident and Emergency Departments in hospitals in England 354
- Alcohol-withdrawal syndrome**
 - increase in circulating tryptophan availability to the brain shortly before the appearance of, in alcohol-dependent men 616
- Alcoholic (Korsakoff's) psychosis**
 - relationship between parenteral thiamine and incidence of (Letter to the Editors) 549
- relationship between parenteral thiamine and incidence of (Response to a Letter to the Editors) 549
- Alcoholic beverages**
 - effects of moderate doses of, with dinner, on postprandial high-density lipoprotein composition 403
- Alcoholic cirrhosis**
 - correlation between plasma endotoxin and tumour-necrosis factor (TNF) receptor levels in 606
- Alcoholic liver disease**
 - patients with, perception of their problem in the Health Locus of Control assessment procedure 184
- Alcoholic patients**
 - improvement of, as measured with the General Health Questionnaire 421
- Alcoholic pellagra encephalopathy**
 - role of nicotinamide deficiency in development of 317
- Alcoholic polyneuropathy**
 - use of benfotiamine in the treatment of, in an 8-week randomized controlled study 631
- Alcoholic violent offenders**
 - ethics and efficacy of treatment of 20
- Alcoholics**
 - event-related correlates of response suppression, as indicators of novelty seeking in 475
 - rehabilitation of, in prisons 83
 - treatment of socially adapted, in relation to aggression 16
- Alcoholics Anonymous**
 - levels of membership of, in relation to trends in alcohol consumption and alcohol-related problems for Alberta: 1975-1993 265
- Alcoholism**
 - and family context 37
 - effects of violence associated with, on children 42
 - relapse prevention by specific serotonin-reuptake inhibitors 151
 - typologies and relationship with aggression 16
 - use of trazodone as an adjuvant in the treatment of, in an open study 362
 - usefulness of laboratory markers and questionnaires in diagnosis of 424
- Alcoholism history**
 - reliability of, in patients with alcohol-related cirrhosis 488
- Alcoholism treatment**
 - improvement of autonomic neurocardiac balance by acamprosate during 602
- Aldehyde dehydrogenase**
 - characteristics of, in certain aerobic bacteria representing the human colonic flora 273
- All-Party Group on Alcohol Misuse**
 - view in relation to violence 89
- Alpha-glutathione-S-transferase activity**
 - relationship with alcohol intake and liver involvement in chronic alcohol abusers 366
- American Paradox**
 - of the fetal alcohol syndrome 195
- Amygdala**
 - role of alcohol withdrawal kindling in seizures induced by electrical stimulation of 244
- Animal model**
 - of oral ethanol administration in liquid diet, and production of liver lesions 347

Antisocial personality

role of, in alcohol-related crime 12

Anxiety

role of benzodiazepines in treatment of, in alcohol-dependent patients 563

Anxiolysis

role of, in the ability of γ -hydroxybutyric acid to influence alcohol consumption by Sardinian alcohol-preferring sP rats 465

Ascending blood-alcohol concentration curve

enhanced aggression during 47

Ataxia of stance

presence of in different types of alcohol-dependent patients by Lesch's typology 393

Attachment to significant people

status in families of alcoholics 37

B-Vitamin deficiency

role of, in neuropsychiatric syndromes of alcohol misuse 317

Bacterio-colonic pathway of ethanol oxidation

activities and other characteristics of enzymes of, in bacteria of the human colonic flora 273

Benfotiamine

efficacy of this form of high bioavailability vitamin B, in the treatment of alcoholic polyneuropathy 631

Benzodiazepines

a review of clinical trials of 103

a review of their use in the treatment of alcohol-dependent patients 563

therapeutic strategies for use of, in treatment of acute alcohol withdrawal 563

unwanted effects of, in use in alcohol-dependent patients during acute withdrawal 563

Binocular depth inversion

reduction of, in severe alcohol intoxication and alcohol withdrawal 168

Biochemical markers of alcohol consumption

urinary concentrations of ethanol and methanol and ratio of 5-hydroxytryptophol: 5 hydroxyindol-3-ylacetic acid 431

Blood-ethanol concentration

elevation of, by the nitric oxide synthase inhibitor 7-nitroindazole in rats after acute ethanol administration and during withdrawal 609

Brain serotonin

low levels of, in frontal cortex of Sardinian alcohol-preferring sP rats 226

Breath-alcohol concentration

influence of extent of habitual alcohol intake on, in young social drinkers 495

lower levels of, in habitually light social drinkers 495

Brief intervention

role of, by an alcohol health worker in an Accident and Emergency Department, in influencing alcohol drinking behaviour 651

Burn injury

potential mechanisms of acceleration of ethanol metabolism in patients with (Editorial Comment) 311

potential mechanisms of acceleration of ethanol metabolism in patients with (Letter to the Editors) 310

CAGE questionnaire

value of, in detecting heavy alcohol consumption, in comparison with CDT and other laboratory markers 304
value of, in diagnosis of alcoholism in comparison with MAST and laboratory markers 424

Calcium acetylthiomaurinate

effect of short-term treatment of alcoholics with, on autonomic neurocardial balance 602

Cannabinoid CB₁ receptor

effect of the antagonist SR 141716 on alcohol intake by Sardinian alcohol-preferring sP rats 126

Carbamazepine

a review of clinical trials of, in the treatment of alcohol withdrawal symptoms 103
effect of, on binocular depth inversion changes in alcohol withdrawal 168

Carbohydrate-deficient transferrin

comparison of two methods for the determination of the serum concentration of, in four different European laboratories 639
effect of different types of serum separators in determination of 447
its elevation predicts prolonged intensive care unit stay in traumatized men 661
the use of a semi-automated method for determination of concentration of, in patients with primary biliary cirrhosis: a pilot study 657
use of as a laboratory screening marker of alcohol consumption in outpatients attending a general medical clinic 304
usefulness of, in diagnosis of alcoholism, in comparison with other Laboratory tests and questionnaires 424
value of, in detecting alcohol dependence, but not simple consumption levels 646

Carbohydrates

role of low levels of, in production of liver lesions following oral administration of alcohol-containing liquid diets 347

Cardioprotective effect

of moderate alcohol consumption and its possible mediation by 'vital exhaustion' 528

Case-control

use of, as a design in studying the relative and population attributable risk of traffic injuries in relation to blood-alcohol levels in a mediterranean country 502

Central nervous system

inactivation of, as reflected by pupillary oscillations, and its disturbance in alcohol-dependent patients 541

Cervical hip fractures

healing complications of, in relation to alcohol abuse 373

Chick embryo

as a model for studying the effect of ethanol exposure *in ovo* on uptake of *N*-methylamino- α -isobutyric acid 451
as an experimental model of the fetal-alcohol syndrome 457

Children

attitudes towards parents in families characterized by violence and alcoholism 42

Children of alcoholics

event-related potentials elicited in, by infrequent non-target stimuli, and the role of gender and family history of alcoholism 281

- Chlormethiazole**
a review of clinical trials of, in the treatment of alcohol withdrawal symptoms 103
- Cholesteryl ester transfer protein**
level of, after consumption of alcoholic beverages with a meal 403
- Chronic alcohol administration**
lack of involvement of endotoxin in the increased rate of ethanol elimination by, in rats 443
- Cirrhosis**
alcohol-related, reliability of alcoholism history in self and collateral reporting of 488
alcoholic, correlation in, of plasma endotoxin and tumour-necrosis factor levels 606
- Cirrhosis mortality**
levels of, in relation to trends in alcohol consumption and availability in Alberta for the period 1975-1993 265
- Citalopram**
efficacy of, in alcoholism relapse prevention 151
- Classification of drinking levels**
role of, in estimates of incidence of the fetal alcohol syndrome 195
- Clinical trials**
of drugs in treatment of alcohol withdrawal symptoms 103
- Cognitive executive function**
impairment in alcohol-induced aggression 47
- Collateral report**
comparison of, with self-report of alcoholism history in patients with alcohol-related cirrhosis 488
- Comorbid depression**
influence of, on drinking outcome in detoxified alcoholics 482
- Comorbidity of alcohol dependence**
with social phobia in Udmurt men and depression in Russian men 255
- Concurrent psychiatric disorder**
higher frequency of, in problematic drinking victims of sexual abuse 592
- Conditioned taste aversion**
effect of MK-801 on that induced by ethanol 116
- Control measures**
of alcohol consumption, and public opinion of, in Rotterdam, The Netherlands 141
- Coping and social skills training**
in treatment of alcoholic offenders 20
- Coronary heart disease**
effects of intake of alcoholic beverages with a meal on lipoprotein composition, in relation to 403
relationship with alcohol intake and implications for clinicians 576
- Cortical function**
possible involvement of, in alcohol-related aggression 47
- Craving**
assessment of, during treatment of alcoholics with citalopram and fluvoxamine 151
- Crime**
role of alcohol in 12, 89
- Criminal justice agencies**
evidence given by, to the All-Party Group on Alcohol Misuse 89
- Criminal Justice System**
role of Police Service within, in alcohol-related crime 73
- Criminality**
alcohol-related, medico-legal aspects of 26
- Cued continuous-performance test**
comparison of, in alcoholics and controls 475
- Dependence**
risk of, in benzodiazepine-treated alcohol-dependent patients 563
- Depression**
relationship of, with drinking outcome in detoxified alcoholics 482
- Detention**
as alternative to treatment, in a forced-choice management scheme for drug offenders in Amsterdam 33
- Deterrent medication**
in treatment of alcoholic violent offenders 20
- Detoxification**
experience of, in in-patient alcoholics in relation to predictors of outcome 291
- Diagnostic tests of alcoholism**
comparison of laboratory markers and questionnaires 424
- Diazepam**
blockade of alcohol withdrawal seizures by, in relation to kindling caused by electrical stimulation of amygdala in rats 244
effect of, on voluntary alcohol intake in a rat model of alcoholism 207
role of blockade of alcohol withdrawal with, in the kindling behaviour 230
- Diet**
as a confounder in the relationship between alcohol intake, the heart and health 576
- Dihydrotestosterone**
possible role of, in acceleration of ethanol metabolism in patients with burns (Letter to the Editors) 310
- Dizocilpine**
NMDA receptor antagonist, effect on ethanol-induced conditioned taste aversion 116
- Drink-drive groupwork programmes**
for rehabilitation 78
- Drinking habits**
comparison of, in medical and other students (Letter to the Editors) 549
- Drinking status**
outcomes in relation to, at 6-month and 1-year follow-up after detoxification 291
- Drinks industry**
role of, in pressure for deregulation of alcohol consumption 337
- Drug treatment**
of alcohol withdrawal symptoms: a review of clinical trials of 103
- Drugs**
medico-legal aspects of criminality related to 26
- Dyadic relationship**
of the alcoholic 37
- Early onset alcoholism**
aggression and treatment outcome 16
event-related potentials in relation to 475
- Education**
role of, in prevention of alcohol-related birth effects 411

Education of children

attitudes of alcoholics to 37

Efficacy

of treatment of alcoholic violent offenders 20

Electrical stimulation

response to, in amygdala, of alcohol withdrawal kindled rats 244

Elevated plus maze test

of anxiety, in Sardinian alcohol-preferring sP rats and its modification, by γ -hydroxybutyric acid 465

Embryo

chicken, as a model for studying the teratogenicity of ethanol in different strains 457

Endotoxin

correlation of plasma levels of with TNF α and TNF receptor levels in alcoholic cirrhosis 606
high levels of do not affect ethanol elimination in rats 443

Enzyme immunoassay

of serum carbohydrate-deficient transferrin (CDTect-EIA), and its comparison with radioimmunoassay (CDTect-RIA) in four European laboratories 639

Epidemiology

of harmful use of, and dependence on, alcohol in rural Estonian populations 255
of relative and population attributable risk of alcohol-related traffic injuries 502

Ethanol

conditioned taste aversion induced by effect of MK-801 116
effect of chronic administration of, on NADPH-diaphorase activity in rat brain 341
effect of exposure to *in ovo* of chick embryo cells on sodium-dependent *N*-methylamino- α -isobutyric acid uptake, and response to stimulation/down regulation of protein kinases 451
oxidation of, by bacteria of the human colonic flora 273
teratogenicity of, in chick embryos 457

Ethanol elimination

high blood endotoxin does not affect the rate of, in rats 443

Ethanol exposure

effect of, in a low-carbohydrate liquid diet, on liver histology 347

Ethanol intake

application of the queueing theory with the Monte Carlo simulation to the study of 519

Ethanol metabolism

acceleration of, in patients with burn injury (Letter to the Editors) 310
mechanisms of acceleration of, in patients with burn injury (Editorial Comment) 311

Ethanol pharmacokinetics

effects on, of the nitric oxide synthase inhibitors 7-nitroindazole in the rat after acute and chronic ethanol administration 609
influence of habitual social drinking on 495

Ethanol reinforcement

possible involvement of endogenous cannabinoids in 126
the substitution mechanism as an explanation of the reduction of ethanol consumption by γ -hydroxybutyric acid in Sardinian alcohol-preferring rats 465

Ethics

of treatment of alcoholic violent offenders 20
The Farmington Consensus 1

European Union

role of, in deregulation of alcohol consumption in Europe 337

Event-related potentials

comparison of, between alcoholics and controls, in relation to novel seeking in alcoholics 475
response of control children and those with family history of alcoholism to auditory and visual infrequent non-target stimuli 281

Examination grades

lower in female medical students, as related to alcohol consumption 549

Excitatory amino acids

absence of an increase in availability to the brain of, shortly before the appearance of the alcohol-withdrawal syndrome in alcohol-dependent men 616

Family environment

effects of alcoholism and violence on 42

Family history of alcoholism

role of, in response of children to auditory and visual event-related potentials 281

Family study

of alcohol consumption in Israelis 509

Farmington Consensus

Editorial on 1
Statement by addiction journal Editors 6

Fetal alcohol syndrome

the 'American Paradox' of 195

Fetal-alcohol syndrome

prevention strategies of birth defects of 411, 417
teratogenicity of ethanol in different chicken strain embryos 457

Fluvoxamine

efficacy of, in alcoholism relapse prevention 151

Follow-up

at 6 and 12 months following detoxification, in relation to drinking status 291
of drinking outcome measures in detoxified alcoholics, in relation to comorbid depression 482

Fourier analysis of pupillary oscillations

effects of alcohol dependence on outcome of 541

Frontal cortex of brain

low serotonin levels in, in Sardinian alcohol-preferring sP rats 226

Gamma-glutamyl transferase

comparison of, with CDT and MCV in detecting heavy alcohol consumption 304
decline in levels of, in serum of alcohol-dependent subjects with abstinence 626
limitations in the use of, in diagnosis of alcohol dependence 626

Gamma-hydroxybutyric acid

reduction of ethanol intake by, in support of the substitution mechanism, in Sardinian alcohol-preferring sP rats 465

Gender

role of, in event-related potential responses of children of alcoholics 281

- role of, in population distribution of class 1 alcohol dehydrogenase gene in French 173
- General Health Questionnaire**
as a measure of improvement of alcoholic patients 421
- General hospital**
comparison of improvement of alcoholics and other psychiatric patients treated in, as assessed by the General Health Questionnaire 421
- Genetic aspects**
of alcohol consumption in Jewish families in Israel 509
- Genetics**
liver alcohol dehydrogenase in alcohol-related pathologies 173
- Glucocorticoids**
possible role of, in acceleration of ethanol metabolism in patients with burn injury (Editorial Comment) 311
- γ -Glutamyl transpeptidase isoforms**
usefulness of, in diagnosis of alcoholic liver diseases 92
- Growth**
role of differences in rates of, among chicken strains, in ethanol teratogenicity 457
- Growth hormone**
possible role of, in acceleration of ethanol metabolism in patients with burns (Letter to the Editors) 310
- γ -GTT isoforms**
induction by drugs, status in diagnosis of alcohol abuse 92
- Habitual alcohol intake**
effect of, on breath-alcohol concentrations following a prolonged drinking experiment in a social-setting design 495
- Hangover state**
relationship of, to the biochemical markers of alcohol consumption, methanol and 5-hydroxytryptophol: 5-hydroxyindol-3-ylacetic acid ratio 431
- Harmful use of alcohol**
epidemiology of, in rural Estonia 255
- Health Locus of Control**
use of, in assessment of problem drinkers with and without liver disease 184
- Heart disease**
possible mediation of the protective effect of moderate alcohol consumption against, by 'vital exhaustion' 528
- Heart rate variability**
effect of acamprosate on, in recently detoxified alcoholics 602
- Hepatitis**
relationship between infection with B and C viruses and excessive alcohol consumption 202
- HIV infection**
role of excessive alcohol consumption in progression of, to AIDS 202
- Home detoxification**
comparison of efficacy of, with minimal intervention, in alcohol-dependent patients 157
- γ -Hydroxybutyric acid**
possible role of, as a determinant of alcohol preference in sP rats 121
- 5-Hydroxytryptophol**
to 5-hydroxyindol-3-ylacetic acid ratio: use of, in urine, as a biochemical marker of recent alcohol drinking in the hangover state 431
- Individual programmes**
for rehabilitation of alcohol-related criminal offenders 78
- Insulin**
effect of, and of insulin-like growth factor (IGF-1), on sodium-dependent amino acid uptake by chick embryo cells, in the presence of ethanol exposure to, *in ovo* 451
- Intellectual impairment**
role of, in alcohol-related crime 12
- Intensive-care patients**
elevation of carbohydrate-deficient transferrin in, in relation to alcohol consumption, as a predictor of prolonged stay and medical complications 661
- International trade**
as a factor in legislative efforts for deregulation of alcohol consumption 337
- Intestinal flora**
crucial role of, in accumulation of acetaldehyde after alcohol ingestion 273
- J-shaped curve**
of the relationship between alcohol consumption and cardiovascular disease (Review) 576
- Jewish families**
genetic epidemiology of alcohol consumption in 509
- Kindling**
influence of previous induction of, by repeated alcohol withdrawal, on that produced by electrical stimulation of amygdala in rats 244
irreversibility of, in alcohol withdrawal in rats 230
use of benzodiazepines in relation to, in alcohol-dependent patients 563
- Laboratory markers of alcohol consumption**
comparisons of, in detecting heavy consumption by outpatients in a general medical unit 304
- Lecithin: cholesterol acyltransferase**
activity of, after consumption of alcoholic beverages with a meal 403
- Legal responsibility**
assessment of, in alcohol and drug-related criminality in Germany 26
- Lesch's typology of alcohol dependence**
occurrence of ataxia of stance in patients classified according to 393
- Licensing Act**
change of, in relation to alcohol-related crime 78
- Lipoproteins**
HDL composition after consumption of alcoholic beverages with a meal 403
- Liquid diet**
production of liver lesions following oral administration of ethanol in 347
- Liver alcohol dehydrogenase**
role of its class 1 gene in alcohol-related pathologies 173
- Liver cirrhosis**
alcoholic, and alpha-glutathione-S-transferase activity 366
meta-analysis of the risk of, in relation to alcohol intake 381
- Liver disease**
changes in alpha-glutathione-S-transferase activities in alcohol abusers in relation to 366
counselling of patients with, in relation to treatment of alcoholism in 184

- Liver enzymes**
as markers in the diagnosis of alcoholism 424
- Liver transplantation**
comparison of self and collateral report of alcoholism
history of patients with alcoholic cirrhosis, in relation to 488
- Maastricht questionnaire**
for assessment of 'vital exhaustion' in relation to the cardioprotective effect of moderate alcohol consumption 528
- Magistrates' Courts**
and alcohol-related crime 78
- Mathematical modelling**
application of the queueing theory in, with Monte Carlo simulation 519
- Mean corpuscular volume**
comparison of, with CDT and g-GT in detecting heavy alcohol consumption 304
- Medico-legal aspects**
of alcohol-related criminality 26
- Memory deficit**
role of cholinergic impairment in, in alcohol dependence 541
- Meta-analysis**
of alcohol intake in relation to the risk of liver cirrhosis 381
- Methanol**
determination of urinary concentration of, in relation to hangover and as a marker of recent alcohol consumption 431
- Minimal intervention**
comparison of efficacy of, with home detoxification, in alcohol-dependent patients 157
- Moderate alcohol consumption**
possible mediation of the cardioprotective effect of by 'vital exhaustion' 528
relationship to relative and population attributable risks of road traffic injuries 502
role of, in the cardioprotective effect of alcohol 576
- Monte Carlo simulation**
use of, in the application of the queueing theory to the study of intake and adverse effects of ethanol 519
- Motor function**
correction of impairment of, in alcoholic polyneuropathy, by benfotiamine 631
- NADPH-diaphorase**
effect of chronic ethanol administration on activity of, in rat brain cortex 341
- Neurocardiac function**
improvement of, by treatment of alcoholics with acamprosate 602
- Neurological assessment**
of ataxia, in comparison with posturographic assessment, in different types of alcohol dependence, by Lesch's typology 393
- Neuropsychiatric syndromes**
role of B-vitamin deficiencies in development of, in alcoholism 317
- Neurotoxic tryptophan metabolites**
possible role of, in mediating the behavioural features of the alcohol-withdrawal syndrome in humans 616
- Nitric oxide**
and the effect of the NOS inhibitor 7-nitroindazole on ethanol pharmacokinetics in the rat 609
effect of chronic ethanol administration on NOS activity (NADPH-diaphorase) in rat brain 341
- Nitric oxide (NO) synthase**
effect of chronic ethanol administration on activity of, in rat brain cortex 341
- 7-Nitroindazole**
effects of, as a NOS inhibitor, on ethanol pharmacokinetics in rats after acute and chronic ethanol administration 609
- Novelty seeking**
event-related correlates of response suppression, as indicators of, in alcoholics 475
- Obituary**
of Professor Olof Forsander 193
- Open field test**
modulation of ethanol-induced changes in locomotor activity tested in, by γ -hydroxybutyric acid in Sardinian alcohol-preferring rats 465
- Open-field behaviour**
lack of correlation with acceptance of ethanol solutions by Wistar rats 131
- Organ damage**
possible role in, of colonic bacterial alcohol metabolism 273
- Osteonecrosis**
of the femoral head following femoral neck injury, and alcohol abuse 373
- Outcome**
measures of drinking, in detoxified chronic alcoholics, in relation to comorbid depression 482
- Paddington Alcohol Test**
usefulness of administration of, by an alcohol health worker in influencing alcohol drinking behaviour in patients seen in an Accident and Emergency Department 651
- Parental relationships**
in families of alcoholics 37
- Parenteral thiamine**
relationship of discontinuation of, to the increased incidence of Korsakoff's psychosis in Glasgow (Letter to the Editors) 549
relationship of discontinuation of, to the increased incidence of Korsakoff's psychosis in Glasgow (Response to a letter to the Editors) 549
- Police custody of alcohol-related criminal offenders**
attitudes and interactions 73
- Police enforcement of licensing laws**
in combating alcohol-related crime 78
- Police Service**
role of, in dealing with alcohol-related offences 73
- Population study**
of alcohol intake habits in Swedish women 533
- Post-traumatic complications**
carbohydrate-deficient transferrin elevation as a predictor of, in intensive care unit patients, as related to alcohol intake 661
- Posturography**
role of, in detecting ataxia of stance in alcohol-dependent patients 393

- Prevalence of alcohol use/dependence**
in rural Estonian populations 255
- Prevention**
role of, in Accident and Emergency Departments, in combating alcohol-related problems 354
- Pricing**
role of an increase in, of alcoholic beverages, in combating alcohol-related birth effects 417
- Primary biliary cirrhosis**
determination of carbohydrate-deficient transferrin in patients with 657
- Problem drinkers**
role of Health Locus of Control in assessment of awareness by, in relation to therapy outcome 184
- Protein kinases**
the role of stimulation/down regulation of, in the effects of ethanol exposure *in ovo* on sodium-dependent amino acid uptake by chick embryo cells 451
- Psychiatric disorders**
as a factor in alcohol-related crime 12
- Psychological dependence on alcohol**
effect of diazepam on alcohol intake in a rat model of 207
- Psychopathological disturbances**
in children of families with alcoholism and violence 42
- Psychotropic medication**
in treatment of violent offenders 20
- Public Health**
effect on, of deregulation of alcohol consumption 337
- Public health measures**
role of, in reducing alcohol-related birth effects 417
- Public opinion on drinking behaviour**
in Rotterdam, The Netherlands, in relation to the social climate on alcohol 141
- Pupillary dilatation**
test of, in relation to central nervous system and psychophysiological deficits in alcohol-dependent patients 541
- Queueing theory**
application of, with the Monte Carlo simulation, to the study of the intake and adverse effects of ethanol 519
- Radioimmunoassay**
of serum carbohydrate-deficient transferrin (CDTect-RIA), and its comparison with enzyme immunoassay (CDTect-EIA) in four European laboratories 639
- Rat model of alcoholism**
effect of treatment with diazepam on alcohol intake in 207
- Rehabilitation**
of alcohol-related criminal offenders 78
- Saccharin**
role of in predicting initial acceptance of ethanol by rats 131
- Sardinian alcohol-preferring sP rats**
decreased ethanol intake by, after acute administration of a cannabinoid CB₁ receptor antagonist 126
reduction of ethanol intake by, by γ -hydroxybutyric acid 465
serotonin metabolic status of 220, 226
tryptophan metabolic status of 220
- Screening**
for alcohol-related problems at Accident and Emergency Departments in England 354
- Sedative effects**
of γ -hydroxybutyric acid, are greater in sP than sNP rats 121
- Segregation analysis**
as related to alcohol consumption in Jewish families in Israel 509
- Seizures**
kindling phenomenon and, in alcohol withdrawal in rats 230
role of previous alcohol withdrawal kindling in that induced by electrical stimulation of amygdala in rats 244
- Self-ratings**
usefulness of, in diagnosis of alcoholism, in the CAGE and MAST questionnaires 424
- Self-report**
comparison of, with collateral report of alcoholism history for patients with alcohol-related cirrhosis 488
- Sensitization**
by non-aversive doses of MK-01, of rats to the aversive stimulus effects of ethanol 116
- Serotonin**
deficiency of, in frontal cortex of brains of Sardinian alcohol-preferring sP rats 226
levels of, in whole brains of Sardinian alcohol-preferring sP and -non-preferring sNP rats 220
metabolic aspects of, in alcohol-induced aggression 66
role of, in alcohol-induced aggressive behaviour 55
status of, in alcohol preference 220
- Serotonin deficiency**
role of, in alcohol-induced aggression 66
- Serum separators**
effect of different devices of, on carbohydrate-deficient transferrin estimation 447
- Sexual abuse**
relationship of, to subsequent development of alcohol problems: A Review 592
- Sleep time**
 γ -hydroxybutyric acid-induced, is longer in sP than sNP rats 121
- Sleeping-time**
ethanol-induced, and its prolongation by nitric oxide synthase inhibitors in rats 609
- Social class**
as a confounding factor in the relationship between alcohol intake and the heart 576
- Social climate on alcohol**
in Rotterdam, The Netherlands, in relation to public opinion on drinking behaviour and alcohol control measures 141
- Socioeconomic status**
role of, in rates of incidence of the fetal alcohol syndrome 195
- Spontaneous osteonecrosis**
incidence of, in alcohol abusers 373
- SR 141716**
Cannabinoid CB₁ receptor antagonist, effect on ethanol, water and food intake by Sardinian alcohol-preferring sP rats 126
- SSRIs**
efficacy of, in relapse prevention in alcoholism 151
- Street junk project**
value in rehabilitation of drug offenders 33

Stress

- role of, in acceleration of ethanol metabolism in burn patients (Letter to the Editors) 310
- role of, in acceleration of ethanol metabolism in burn patients (Editorial Comment) 311

Substitution mechanism

- as an explanation of the reduction in ethanol intake by Sardinian alcohol-preferring sP rats by γ -hydroxybutyric acid 465

Taxation

- increase of, for combating alcohol-related birth effects 417

Teratogenicity

- of ethanol, in chick embryos of different chicken strains 457

The Farmington Consensus

- Editorial on 1
- Text of 6

Thiamine

- use of a highly bioavailable form of (benfotiamine), in the treatment of alcoholic polyneuropathy 631

Traffic injuries

- relative and population attributable risks of, in relation to blood-ethanol concentration 502

Training of Licensees

- as an aid to combat alcohol-related crime 78

Trazodone

- use of, as an adjuvant in the treatment of alcoholism in an open study 362

Treatment

- as option in rehabilitation of drug offenders 33
- mandatory/voluntary, of alcoholic violent offenders 20
- of alcoholism, use of trazodone as an adjuvant to 362

Treatment of alcoholism

- levels of, in the context of trends in availability, consumption and AA membership 265

Treatment outcome

- in alcoholism, in relation to aggression 16

Treatment strategies

- comparison of home detoxification and minimal intervention, in treatment of alcohol dependence 157

Tryptophan

- availability to the brain, in control of serotonin synthesis, as related to alcohol-induced aggression 66
- depletion strategy, in studies of alcohol-induced aggressive behaviour 55

Tryptophan availability to the brain

- increase of, in alcohol-dependent men shortly before the appearance of the alcohol-withdrawal syndrome 616

Tryptophan metabolism

- in Sardinian alcohol-preferring sP and -non-preferring sNP rats 220

Tryptophan pyrrolase

- increased activity and mRNA expression of, in Sardinian alcohol-preferring sP rats 220

Tumour-necrosis factor (TNF)

- correlation between levels and receptors of plasma endotoxin in alcoholic liver cirrhosis 606

Twelve-step Model

- of rehabilitation of addicted prisoners 83

United States of America

- paradoxically high incidence of the fetal alcohol syndrome in studies conducted in 195

Urine

- concentrations of ethanol and methanol, and ratio of 5-hydroxytryptophol: 5-hydroxyindol-3-ylacetic acid in, in relation to hangover and as laboratory markers of recent alcohol consumption 431

Vibration perception

- improvement of, in alcoholic polyneuropathy, by benfotiamine 631

Violence

- association with alcohol consumption 55

Viral infection

- relationship to excessive alcohol consumption 202

Visual perception

- changes in, as assessed by binocular depth inversion, in alcohol intoxication and alcohol withdrawal 168

Vital exhaustion

- possible role of, in the cardioprotective effect of moderate alcohol consumption 528

Vitamin B

- use of a highly bioavailable form of (benfotiamine), in the treatment of alcoholic polyneuropathy 631

Vitamin B supplementation

- role of, in prevention of neuropsychiatric syndromes of alcohol misuse and dependence 317

Voluntary alcohol consumption

- effect of diazepam on, in a rat model of alcoholism 207
- status of brain serotonin in animal models of 226

Voluntary ethanol intake

- decrease of, in Sardinian alcohol-preferring sP rats after acute administration of the cannabinoid CB₁ receptor antagonist SR 141716 126
- modulation of, by γ -hydroxybutyric acid in Sardinian alcohol-preferring sP rats 465

Vulnerability

- role of serotonin deficiency in, in alcohol-induced aggression 66

Wernicke's encephalopathy

- relationship to discontinuation of parenteral thiamine (Letter to the Editors) 549
- relationship to discontinuation of parenteral thiamine (Response to a Letter to the Editors) 549

Wernicke-Korsakoff syndrome

- role of the thiamine deficiency of alcoholism in 317

Wine and spirit intake

- changes in habits of, in Swedish women in a longitudinal study 533

Withdrawal

- use of benzodiazepines in, from alcohol 563

Women's alcohol intake

- study of, in Sweden 533
